Note 1 – Organization, Basis of Presentation and Significant Accounting Policies

Organization

Digipath, Inc. was incorporated in Nevada on October 5, 2010. Digipath, Inc. and its subsidiaries (“Digipath,” the “Company,” “we,” “our” or “us”) supports the cannabis industry’s best practices for reliable testing, cannabis education and training, and brings unbiased cannabis news coverage to the cannabis industry . Our business units are described below.

- Digipath Labs, Inc. Digipath Labs’ mission is to provide pharmaceutical-grade analysis and testing to the cannabis industry to ensure consumers and patients know exactly what is in the cannabis they ingest and to help maximize the quality of our clients’ products through research, development, and standardization. In May of 2015, we opened our first testing lab in Nevada and have plans to open labs in other states that have legalized the sale of cannabis.
- The National Marijuana News Corp. provides a balanced and unbiased approach to cannabis news, interviews and education with a news/talk radio show, app, national marijuana news website and social media presence focusing on the political, economic, medicinal, scientific, and cultural dimensions of the rapidly evolving—and profoundly controversial—medicinal and recreational marijuana industry.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). Intercompany accounts and transactions have been eliminated.

The unaudited condensed consolidated financial statements of the Company and the accompanying notes included in this Quarterly Report on Form 10-Q are unaudited. In the opinion of management, all adjustments necessary for a fair presentation of the Condensed Consolidated Financial Statements have been included. Such adjustments are of a normal, recurring nature. The Condensed Consolidated Financial Statements, and the accompanying notes, are prepared in accordance with GAAP and do not contain certain information included in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2016. The interim Condensed Consolidated Financial Statements should be read in conjunction with that Annual Report on Form 10-K. Results for the interim periods presented are not necessarily indicative of the results that might be expected for the entire fiscal year.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the following entities, all of which were under common control and ownership at September 30, 2016:

Name of Entity ⁽¹⁾	State of Incorporation	Relationship
Digipath, Inc. ⁽²⁾	Nevada	Parent
Digipath Labs, Inc.	Nevada	Subsidiary
TNM News, Inc.	Nevada	Subsidiary
GroSciences, Inc. ⁽³⁾	Colorado	Subsidiary

(1) All entities are in the form of a corporation.

(2) Holding company, which owns each of the wholly-owned subsidiaries. All subsidiaries shown above are wholly-owned by Digipath, Inc., the parent company.

(3) Entity formed for prospective purposes, but has not incurred any income or expenses to date.

The consolidated financial statements herein contain the operations of the wholly-owned subsidiaries listed above. All significant inter-company transactions have been eliminated in the preparation of these financial statements. The parent company and subsidiaries will be collectively referred to herein as the “Company”, “Digipath” or “DIGP”. The Company’s headquarters are located in Las Vegas, Nevada and substantially all of its customers are within the United States.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management are necessary for fair presentation of the information contained therein.

Equity Method

Investee companies that are not consolidated, but over which the Company exercises significant influence, are accounted for under the equity method of accounting. Whether or not the Company exercises significant influence with respect to an Investee depends on an evaluation of several factors including, among others, representation on the Investee company’s board of directors and ownership level, which is generally a 20% to 50% interest in the voting securities of the Investee company. Under the equity method of accounting, an Investee company’s accounts are not reflected within the Company’s Consolidated Balance Sheets and Statements of Operations; however, the Company’s share of the earnings or losses of the Investee company is reflected in the caption “Equity in losses of unconsolidated entity” in the Consolidated Statements of Operations. The Company’s carrying value in an equity method Investee company is reflected in the caption “Investment in Digipath Corp.” in the Company’s Consolidated Balance Sheets. As of December 31, 2016, our share of losses from the investee company exceeded our basis, therefore the investment is not currently presented on the balance sheet.

DIGIPATH, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

U.S. GAAP considers a change in reporting entity to include “changing specific subsidiaries that make up the group of entities for which consolidated financial statements are presented.” Circumstances may arise where a parent’s controlling financial interest (e.g., generally an ownership interest in excess of 50 percent of the outstanding voting stock) is reduced to a noncontrolling investment that still enables it to exercise significant influence over the operating and financial policies of the investee. A change that results from changed facts and circumstances (such as a partial sale of a subsidiary), where there was only one acceptable method of accounting prior to the change in circumstances (consolidation) and only one acceptable method of accounting after the change (equity method accounting), is not a change in reporting entity and is not be accounted for retrospectively. Accordingly, a change from a controlling interest to a noncontrolling investment accounted for under the equity method is accounted for prospectively from the date of change in control. When the Company’s carrying value in an equity method Investee company is reduced to zero, no further losses are recorded in the Company’s consolidated financial statements unless the Company guaranteed obligations of the Investee company or has committed additional funding. When the Investee company subsequently reports income, the Company will not record its share of such income until it equals the amount of its share of losses not previously recognized.

Segment Reporting

ASC Topic 280, “Segment Reporting,” requires use of the “management approach” model for segment reporting. The management approach model is based on the way a company’s management organizes segments within the company for making operating decisions and assessing performance. The Company operates as a single segment and will evaluate additional segment disclosure requirements as it expands its operations .

Fair Value of Financial Instruments

Under FASB ASC 820-10-05, the Financial Accounting Standards Board establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement reaffirms that fair value is the relevant measurement attribute. The adoption of this standard did not have a material effect on the Company’s financial statements as reflected herein. The carrying amounts of cash, accounts receivable, accounts payable and accrued expenses reported on the balance sheets are estimated by management to approximate fair value primarily due to the short term nature of the instruments. In addition, the Company had debt instruments that required fair value measurement on a recurring basis.

Revenue Recognition

The Company recognizes revenue in accordance with ASC 605, Revenue Recognition. ASC 605 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery of product has met the criteria established in the arrangement or services rendered; (3) the fee is fixed and determinable; and (4) collectability is reasonably assured. This occurs when the products or services are completed in accordance with the contracts we have with clients. In connection with our products and services arrangements, when we are paid in advance, these amounts are classified as deferred revenue and amortized over the term of the agreement. With respect to our cannabis lab testing revenues, we sell our services on a determinable fixed fee per test, or panel of tests basis, and offer a discounted price for customers that agree to enter into exclusive, long term contracts. We typically require payment within thirty days of the delivery of results. Revenues are recognized upon the substantial completion of the tests when collectability is reasonably assured, which is usually upon delivery of results to the customer.

Stock-Based Compensation

The Company accounts for equity instruments issued to employees in accordance with the provisions of ASC 718 Stock Compensation (ASC 718) and Equity-Based Payments to Non-employees pursuant to ASC 505-50 (ASC 505-50). All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. The measurement date of the fair value of the equity instrument issued is the earlier of the date on which the counterparty’s performance is complete or the date at which a commitment for performance by the counterparty to earn the equity instruments is reached because of sufficiently large disincentives for nonperformance.

Recent Accounting Pronouncements

In January 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-04, *Intangibles – Goodwill and Other (Topic 350)*. ASU 2017-04 simplifies the subsequent measurement of goodwill by removing the second step of the two-step impairment test. The amendment requires an entity to perform its annual, or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An impairment charge should be recognized for the amount by which the carrying amount exceeds the reporting unit’s fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The amendment should be applied on a prospective basis. ASU 2017-04 is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company intends to early adopt the ASU in 2017.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, which clarifies the definition of a business to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The standard will be effective for the Company in the first quarter of 2018. Early adoption is permitted. The Company is currently evaluating the impact of adopting this ASU on its consolidated financial statements.

In December 2016, the FASB issued ASU 2016-20, *Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*. ASU 2016-20 amended guidance regarding accounting for *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. When effective, this standard will replace most existing revenue recognition guidance in GAAP. The standard also requires more detailed disclosures and provides additional guidance for transactions that were not comprehensively addressed in GAAP. This guidance is required to be adopted by us in the first quarter of fiscal 2019 by either recasting all years presented in our financial statements or by recording the impact of adoption as an adjustment to retained earnings at the beginning of the year of adoption. We are currently evaluating the impact this guidance will have on our consolidated financial statements.

In October 2016, the FASB issued ASU No. 2016-17, *Consolidation (Topic 810): Interests Held through Related Parties that are under Common Control*. The amendments in this Update improve GAAP involving situations consisting of common control, wherein a single decision maker focuses on the economics to which it is exposed when determining whether it is the primary beneficiary of a variable interest entity (“VIE”) before potentially evaluating which party is most closely associated with the VIE. ASU 2016-17 is effective for public entities for fiscal periods beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The Company is currently evaluating the impact of adopting this ASU on its consolidated financial statements.

In October 2016, the FASB issued ASU No. 2016-16, *Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory*, which reduces the complexity in the accounting standards by allowing the recognition of current and deferred income taxes for an intra-entity asset transfer, other than inventory, when the transfer occurs. Historically, recognition of the income tax consequence was not recognized until the asset was sold to an outside party. This amendment should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. ASU 2016-16 is effective for annual periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. Early adoption is permitted for all entities as of the beginning of an annual reporting period for which financial statements (interim or annual) have not been issued or made available for issuance. That is, earlier adoption should be in the first interim period if an entity issues interim financial statements. The Company is currently evaluating the impact of adopting this ASU on its consolidated financial statements.

There are no other recently issued accounting pronouncements that the Company has yet to adopt that are expected to have a material effect on its financial position, results of operations, or cash flows.

Note 2 – Going Concern

As shown in the accompanying condensed consolidated financial statements, the Company has incurred recurring losses from operations resulting in an accumulated deficit of (\$10,557,691), and as of December 31, 2016, the Company's cash on hand may not be sufficient to sustain operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is actively pursuing new customers to increase revenues. In addition, the Company is currently seeking additional sources of capital to fund short term operations. Management believes these factors will contribute toward achieving profitability. The accompanying consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The consolidated financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company's ability to continue as a going concern. These financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 3 – Related Party Transactions

Stock Based Compensation for Services

On January 1, 2016, we issued 500,000 shares of common stock to an entity owned by our CEO as compensation for board services rendered during the 2016 calendar year. The aggregate fair value of the common stock was \$70,000 based on the closing price of the Company's common stock on the date of grant, and was expensed in ratably over the requisite service period, resulting in \$17,500 of stock based compensation expense during the three months ended December 31, 2016.

On June 21, 2016, the Company granted options to purchase 4,750,000 shares of common stock as compensation for services to our CEO, Mr. Bianco. The options are exercisable over a ten year period at an exercise price of \$0.20 per share, and 50% vest immediately, with 25% vesting each year thereafter. The estimated value using the Black-Scholes Pricing Model, based on a volatility rate of 230% and a call option value of \$0.1986, was \$943,193. The options are being expensed over the vesting period, resulting in \$58,950 of stock based compensation expense during the three months ended December 31, 2016.

On June 21, 2016, the Company granted options to purchase 2,500,000 shares of common stock as compensation for services to our President and COO, Mr. Denkin. The options are exercisable over a ten year period at an exercise price of \$0.20 per share, and 50% vest immediately, with 25% vesting each year thereafter. The estimated value using the Black-Scholes Pricing Model, based on a volatility rate of 230% and a call option value of \$0.1986, was \$496,417. The options are being expensed over the vesting period, resulting in \$31,026 of stock based compensation expense during the three months ended December 31, 2016.

On June 1, 2015, the Company granted options to purchase 200,000 shares of common stock as compensation for services to our Chief Scientist. The options vest ratably in quarterly increments over two years beginning September 1, 2015. The options are exercisable until June 1, 2025 at an exercise price of \$0.40 per share. The estimated value using the Black-Scholes Pricing Model, based on a volatility rate of 247% and a call option value of \$0.3978, was \$79,552. The options are being expensed over the vesting period, resulting in \$9,944 of stock based compensation expense during the three months ended December 31, 2016.

Note 4 – Fair Value of Financial Instruments

Under FASB ASC 820-10-5, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The standard outlines a valuation framework and creates a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and the related disclosures. Under GAAP, certain assets and liabilities must be measured at fair value, and FASB ASC 820-10-50 details the disclosures that are required for items measured at fair value.

DIGIPATH, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The Company has certain financial instruments that must be measured under the new fair value standard. The Company's financial assets and liabilities are measured using inputs from the three levels of the fair value hierarchy. The three levels are as follows:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 - Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3 - Unobservable inputs that reflect our assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following schedule summarizes the valuation of financial instruments at fair value on a recurring basis in the balance sheets as of December 31, 2016 and September 30, 2016, respectively:

	Fair Value Measurements at December 31, 2016		
	Level 1	Level 2	Level 3
Assets			
Cash	\$ 163,338	\$ -	\$ -
Available-for-sale securities	16,000	-	-
Total assets	179,338	-	-
Liabilities			
Total liabilities	-	-	-
	\$ 179,338	\$ -	\$ -
Fair Value Measurements at September 30, 2016			
	Level 1	Level 2	Level 3

Cash	\$ 135,390	\$ -	\$ -
Available-for-sale securities	9,200	-	-
Total assets	144,590	-	-
Liabilities			
Total liabilities	-	-	-
	\$ 144,590	\$ -	\$ -

The fair value of our intellectual properties are deemed to approximate book value, and are considered Level 3 inputs as defined by ASC Topic 820-10-35.

There were no transfers of financial assets or liabilities between Level 1, Level 2 and Level 3 inputs for the three months ended December 31, 2016 or the year ended September 30, 2016.

Note 5 – Accounts Receivable

Accounts receivable was \$107,334 and \$98,441 at December 31, 2016 and September 30, 2016, respectively, net of allowance for doubtful accounts of \$14,450 and \$0- at December 31, 2016 and September 30, 2016, respectively.

Note 8 - Changes in Stockholders' Equity

Convertible Preferred Stock

The Company is authorized to issue 10,000,000 shares of preferred stock with a par value of \$0.001 per share, of which 6,000,000 have been designated as Series A Convertible Preferred Stock ("Series A Preferred"). The Board of Directors is authorized to determine any number of series into which shares of preferred stock may be divided and to determine the rights, preferences, privileges and restrictions granted to any series of the preferred stock. As of December 31, 2016, there were 3,020,442 shares of Series A Preferred issued and outstanding. Shares of Series A Preferred are convertible into common stock at a fixed conversion rate of \$0.20 per share.

The conversion price is adjustable in the event of stock splits and other adjustments in the Company's capitalization, and in the event of certain negative actions undertaken by the Company. At the current conversion price, the 3,020,442 shares of Series A Preferred outstanding at December 31, 2016 are convertible into 15,102,210 shares of the common stock of the Company. No holder is permitted to convert its shares of Series A Preferred if such conversion would cause the holder to beneficially own more than 4.99% of the issued and outstanding common stock of the Company immediately after such conversion, unless waived by such holder by providing at least sixty-five days' notice.

Preferred Stock Conversions

On November 28, 2016, a shareholder converted 200,000 shares of Series A Preferred into 1,000,000 shares of common stock. The stock was converted in accordance with the conversion terms; therefore no gain or loss has been recognized.

On November 4, 2016, a shareholder converted 200,000 shares of Series A Preferred into 1,000,000 shares of common stock. The stock was converted in accordance with the conversion terms; therefore no gain or loss has been recognized.

On October 4, 2016, a shareholder converted 100,000 shares of Series A Preferred into 500,000 shares of common stock. The stock was converted in accordance with the conversion terms; therefore no gain or loss has been recognized.

Common Stock

Common stock consists of \$0.001 par value, 90,000,000 shares authorized, of which 24,991,041 shares were issued and outstanding as of December 31, 2016.

Common Stock Issued for Services

On January 1, 2016, an affiliate of Mr. Bianco, a director of the Company, became entitled to receive 500,000 shares of common stock for consulting services to be performed during 2016, subject to a ratable "claw back" provision in the event of an early termination of the consulting agreement. The total fair value of the common stock was \$70,000 based on the closing price of the Company's common stock on the date of grant, and is being expensed over the twelve month requisite service period, resulting in \$17,500 of stock based compensation during the period.

Amortization of Stock Options

A total of \$99,920 of stock-based compensation expense was recognized from the amortization of options over their vesting period during the three months ended December 31, 2016.

Note 9 – Common Stock Options

Stock Incentive Plan

On June 21, 2016, we amended and restated our 2012 Stock Incentive Plan (the "2012 Plan"), which was originally adopted on March 5, 2012 and previously amended on May 20, 2014. As amended, the 2012 Plan provides for the issuance of up to 11,500,000 shares of common stock pursuant to the grant of options or other awards, including stock grants, to employees, officers or directors of, and consultants to, the Company and its subsidiaries. Options granted under the 2012 Plan may either be intended to qualify as incentive stock options under the Internal Revenue Code of 1986, or may be non-qualified options, and are exercisable over periods not exceeding ten years from date of grant.

A total of 9,291,530 options were outstanding as of December 31, 2016. No options were granted, exercised or expired during the three months ended December 31, 2016.

Note 10 – Common Stock Warrants

A total of 4,193,136 warrants were outstanding as of December 31, 2016. No warrants were granted, exercised or expired during the three months ended December 31, 2016.

Note 11 – Other Income

Other income consists of rental income of \$- and \$18,000 for the three months ended December 31, 2016 and 2015, respectively, for office space subleased to GB Sciences, Inc. at a monthly fee of \$6,000, along with \$150,000 received during the three months ended December 31, 2016 pursuant to the settlement of a \$300,000 license agreement with GB Sciences, Inc. In addition, we recognized \$4,000 and \$- of other income for the three months ended December 31, 2016 and 2015, respectively, related to restitution payments received from a former employee.

Note 12 - Income Tax

The Company accounts for income taxes under FASB ASC 740-10, which requires use of the liability method. FASB ASC 740-10-25 provides that deferred tax assets and liabilities are recorded based on the differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, referred to as temporary differences.

For the three months ended December 31, 2016 and the year ended September 30, 2016, the Company incurred a net operating loss and, accordingly, no provision for income taxes has been recorded. In addition, no benefit for income taxes has been recorded due to the uncertainty of the realization of any tax assets. At December 31, 2016, the Company had approximately \$6,818,000 of federal net operating losses. The net operating loss carry forwards, if not utilized, will begin to expire in 2031.

Based on the available objective evidence, including the Company's history of its loss, management believes it is more likely than not that the net deferred tax assets will not be fully realizable. Accordingly, the Company provided for a full valuation allowance against its net deferred tax assets at December 31, 2016 and September 30, 2016, respectively.

In accordance with FASB ASC 740, the Company has evaluated its tax positions and determined there are no uncertain tax positions.

Note 13 – Subsequent Events

Preferred Stock Conversions

On January 20, 2017, a shareholder converted 100,000 shares of Series A Preferred into 500,000 shares of common stock. The stock was converted in accordance with the conversion terms; therefore no gain or loss has been recognized.

On January 27, 2017, a shareholder converted 220,000 shares of Series A Preferred into 1,100,000 shares of common stock. The stock was converted in accordance with the conversion terms; therefore no gain or loss has been recognized.

On January 27, 2017, another shareholder converted 150,000 shares of Series A Preferred into 750,000 shares of common stock. The stock was converted in accordance with the conversion terms; therefore no gain or loss has been recognized.

Options expired

On January 1, 2017, options to purchase a total of 1,530 shares of common stock at \$3.30 per share expired.

Overview

Digipath, Inc. was incorporated in Nevada on October 5, 2010. Digipath, Inc. and its subsidiaries ("Digipath," the "Company," "we," "our" or "us") supports the cannabis industry's best practices for reliable testing, cannabis education and training, and brings unbiased cannabis news coverage to the cannabis industry. Our business units as of September 30, 2016 are described below.

- Digipath Labs, Inc. Digipath Labs' mission is to provide pharmaceutical-grade analysis and testing to the cannabis industry to ensure consumers and patients know exactly what is in the cannabis they ingest and to help maximize the quality of our clients' products through research, development, and standardization. In May of 2015, we opened our first testing lab in Nevada and have plans to open labs in other legal states.
- The National Marijuana News Corp. provides a balanced and unbiased approach to cannabis news, interviews and education with a news/talk radio show, app, national marijuana news website and social media presence focusing on the political, economic, medicinal, scientific, and cultural dimensions of the rapidly evolving—and profoundly controversial—medicinal and recreational marijuana industry.

Results of Operations for the Three Months Ended December 31, 2016 and 2015:

The following table summarizes selected items from the statement of operations for the three months ended December 31, 2016 and 2015. The operations of our deconsolidated subsidiary, Digipath Corp. have been removed and summarized in a single line item as, "Equity in losses of unconsolidated entity" within "Other income (expense)".

	Three Months Ended December 31,		Increase / (Decrease)
	2016	2015	
Revenues	\$ 409,751	\$ 102,136	\$ 307,615
Cost of sales	104,602	69,992	34,610
Gross profit	<u>305,149</u>	<u>32,144</u>	273,005
Operating expenses:			
General and administrative	317,563	265,640	51,923
Professional fees	191,643	242,884	(51,241)
Bad debts expense (recoveries)	16,950	289,771	(272,821)
Depreciation and amortization	61,653	61,092	561
Total operating expenses:	<u>587,809</u>	<u>859,387</u>	(271,578)
Operating loss	(282,660)	(827,243)	(544,583)
Total other income (expense)	<u>156,500</u>	<u>(905,618)</u>	1,062,118
Net loss	<u>\$ (126,160)</u>	<u>\$ (1,732,861)</u>	\$ (1,606,701)

Revenues

Revenues were generated by our cannabis testing lab and our advertising from our National Marijuana News Corp. division. Aggregate revenues for the three months ended December 31, 2016 were \$409,751, compared to revenues of \$102,136 during the three months ended December 31, 2015, an increase of \$307,615, or 301%. The revenue in the current period was due to the continued growth of our testing lab operations in Nevada as our customer base, consisting of production and cultivation facilities, established their operations. We anticipate steadily increasing lab testing revenues during the remainder of the fiscal year ending September 30, 2017.

Cost of Sales

Cost of sales for the three months ended December 31, 2016 were \$104,602, compared to \$69,992 during the three months ended December 31, 2015, an increase of \$34,610, or 49%. Cost of sales consists primarily of labor and supplies consumed in our testing operations. The increased cost of sales in the current period was primarily due to the increased supplies consumed in our testing operations that increased by approximately 300% over the comparative period, while our labor only increased by approximately 22%, thereby improving our gross margins by approximately 43%, resulting in gross margins of approximately 74.5% during the three months ended December 31, 2016, compared to gross margins of approximately 31.5% during the three months ended December 31, 2015.

General and Administrative Expenses

General and administrative expenses for the three months ended December 31, 2016 were \$317,563, compared to \$265,640 during the three months ended December 31, 2015, an increase of \$51,923, or 20%. The expenses consisted primarily of marketing, rent, salaries and wages, and travel expenses. The increase was primarily due to increased officer compensation and travel expenses as we added an executive position during June of 2016 and have explored expansion opportunities.

Professional Fees

Professional fees for the three months ended December 31, 2016 were \$191,643, compared to \$242,884 during the three months ended December 31, 2015, a decrease of \$51,241, or 21%. Professional fees decreased primarily due to decreased legal services during the current period, compared to the comparative period.

Bad Debts Expense

Bad debts expense for the three months ended December 31, 2016 was \$16,950, compared to \$289,771 during the three months ended December 31, 2015, a decrease of \$272,821, or 94%. Bad debts expense during the current period consisted of an increased allowance for doubtful accounts of \$14,450 related to our trade receivables and another \$2,500 of an increased allowance for doubtful accounts related to interest on our impaired note receivable owed by Digipath Corp., compared to an increased allowance for doubtful accounts of \$24,146 related to our trade receivables and another \$265,625 of an increased allowance for doubtful accounts related to interest and principal on our impaired note receivable owed by Digipath Corp. for the three months ended December, 31, 2015.

Depreciation and Amortization

Depreciation and amortization expense for the three months ended December 31, 2016 was \$61,653, compared to \$61,092 during the three months ended December 31, 2015, an increase of \$561, or 1%.

Operating Loss

Our operating loss for the three months ended December 31, 2016 was \$282,660, compared to \$827,243 during the three months ended December 31, 2015, a decrease of \$544,583, or 66%. Our operating loss decreased primarily due to increased revenues, decreased legal fees and decreased bad debts during the three months ended December 31, 2016, compared to the three months ended December 31, 2015.

Other Income (Expense)

Other income for the three months ended December 31, 2016 was \$156,500, compared to other expenses on a net basis of \$905,618 during the three months ended December 31, 2015, a net increase of \$1,062,118. Other income consisted of rental income of \$-0- and \$18,000 for the three months ended December 31, 2016 and 2015, respectively, for office space subleased to GB Sciences, Inc. at a monthly fee of \$6,000, along with \$150,000 received during the three months ended December 31, 2016 pursuant to the settlement of a \$300,000 license agreement with GB Sciences, Inc. In addition, we recognized \$4,000 and \$-0- of other income for the three months ended December 31, 2016 and 2015, respectively, related to restitution payments received from a former employee.

Net Loss

Net loss for the three months ended December 31, 2016 was \$126,160, compared to \$1,732,861 during the three months ended December 31, 2015, a decrease of \$1,606,701, or 93%.

Liquidity and Capital Resources

The following is a summary of the Company's cash flows provided by (used in) operating, investing, and financing activities for the three month periods ended December 31, 2016 and 2015:

	2016	2015
Operating Activities	\$ 30,037	\$ (395,016)
Investing Activities	(2,089)	(67,346)
Financing Activities	-	45,000
Net Increase (Decrease) in Cash	<u>\$ 27,948</u>	<u>\$ (417,362)</u>

Net Cash Provided by (Used in) Operating Activities

During the three months ended December 31, 2016, net cash provided by operating activities was \$30,037, compared to net cash used in operating activities of \$395,016 for the same period ended December 31, 2015. The increase in cash provided by operating activities is primarily attributable to our 301% increase in revenues and our 32% decrease in in operating expenses from cost savings we implemented as we continued to develop our cannabis testing lab operations .

Net Cash Used in Investing Activities

During the three months ended December 31, 2016, net cash used in investing activities was \$2,089, compared to \$67,346 for the same period ended December 31, 2015. The decrease is attributable to greater investments made for cannabis testing equipment in the previous period than were necessary in the current period, as well as \$57,876 of cash held and retained by our subsidiary, Digipath Corp., at the time of divestiture in the comparative period.

Net Cash Provided by Financing Activities

During the three months ended December 31, 2016, net cash provided by financing activities was \$-0-, compared to \$45,000 for the same period ended December 31, 2015. The decrease is because we did not sell any securities during the three months ended December 31, 2016.

Ability to Continue as a Going Concern

As of December 31, 2016, our balance of cash on hand was \$163,338. We currently may not have sufficient funds to sustain our operations for the next twelve months and we may need to raise additional cash to fund our operations and expand our lab testing business. As we continue to develop our lab testing business and attempt to expand operational activities, we expect to continue to experience net negative cash flows from operations in amounts not now determinable, and will be required to obtain additional financing to fund operations through common stock offerings to the extent necessary to provide working capital. We have and expect to continue to have substantial capital expenditure and working capital needs.

The Company has incurred recurring losses from operations resulting in an accumulated deficit, and, as set forth above, the Company's cash on hand is not sufficient to sustain operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is actively pursuing new customers to increase revenues. In addition, the Company is currently seeking additional sources of capital to fund short term operations. In the event sales do not materialize at the expected rates, management would seek additional financing or would attempt to conserve cash by further reducing expenses. There can be no assurance that we will be successful in achieving these objectives, becoming profitable or continuing our business without either a temporary interruption or a permanent cessation. In addition, additional financing may result in substantial dilution to existing stockholders.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business. The unaudited consolidated financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Off-Balance Sheet Arrangements

We have no outstanding off-balance sheet guarantees, interest rate swap transactions or foreign currency contracts. We do not engage in trading activities involving non-exchange traded contracts.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires our management to make assumptions, estimates and judgments that affect the amounts reported, including the notes thereto, and related disclosures of commitments and contingencies, if any. We have identified certain accounting policies that are significant to the preparation of our financial statements. These accounting policies are important for an understanding of our financial condition and results of operations. Critical accounting policies are those that are most important to the presentation of our financial condition and results of operations and require management's subjective or complex judgment, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. Certain accounting estimates are particularly sensitive because of their significance to financial statements and because of the possibility that future events affecting the estimate may differ significantly from management's current judgments.

While our significant accounting policies are more fully described in notes to our consolidated financial statements appearing elsewhere in this Form 10-Q, we believe that the following accounting policies are the most critical to aid you in fully understanding and evaluating our reported financial results and affect the more significant judgments and estimates that we used in the preparation of our financial statements.

Equity Method

Investee companies that are not consolidated, but over which the Company exercises significant influence, are accounted for under the equity method of accounting. Whether or not the Company exercises significant influence with respect to an Investee depends on an evaluation of several factors including, among others, representation on the Investee company's board of directors and ownership level, which is generally a 20% to 50% interest in the voting securities of the Investee company. Under the equity method of accounting, an Investee company's accounts are not reflected within the Company's Consolidated Balance Sheets and Statements of Operations; however, the Company's share of the earnings or losses of the Investee company is reflected in the caption "Equity in losses of unconsolidated entity" in the Consolidated Statements of Operations. The Company's carrying value in an equity method Investee company is reflected in the caption "Investment in Digipath Corp." in the Company's Consolidated Balance Sheets. As of December 31, 2016, our share of losses from the investee company exceeded our basis, therefore the investment is not currently presented on the balance sheet.

U.S. GAAP considers a change in reporting entity to include "changing specific subsidiaries that make up the group of entities for which consolidated financial statements are presented." Circumstances may arise where a parent's controlling financial interest (e.g., generally an ownership interest in excess of fifty percent of the outstanding voting stock) is reduced to a noncontrolling investment that still enables it to exercise significant influence over the operating and financial policies of the investee. A change that results from changed facts and circumstances (such as a partial sale of a subsidiary), where there was only one acceptable method of accounting prior to the change in circumstances (consolidation) and only one acceptable method of accounting after the change (equity method accounting), is not a change in reporting entity and is not be accounted for retrospectively. Accordingly, a change from a controlling interest to a noncontrolling investment accounted for under the equity method is accounted for prospectively from the date of change in control. When the Company's carrying value in an equity method Investee company is reduced to zero, no further losses are recorded in the Company's consolidated financial statements unless the Company guaranteed obligations of the Investee company or has committed additional funding. When the Investee company subsequently reports income, the Company will not record its share of such income until it equals the amount of its share of losses not previously recognized.

Stock-Based Compensation

The Company accounts for equity instruments issued to employees in accordance with the provisions of ASC 718 Stock Compensation (ASC 718) and Equity-Based Payments to Non-employees pursuant to ASC 505-50 (ASC 505-50). All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. The measurement date of the fair value of the equity instrument issued is the earlier of the date on which the counterparty's performance is complete or the date at which a commitment for performance by the counterparty to earn the equity instruments is reached because of sufficiently large disincentives for nonperformance.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide the information required by this Item

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2016. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of December 31, 2016, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There have been no significant changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) or in other factors that occurred during the period of our evaluation or subsequent to the date we carried out our evaluation which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. The design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any system of controls and procedures will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are not a party to any legal or administrative proceedings that we believe, individually or in the aggregate, would be likely to have a material adverse effect on our financial condition or results of operations.

ITEM 1A. RISK FACTORS.

As a “smaller reporting company” as defined by Item 10 of Regulation S-K, the Company is not required to provide the information required by this Item.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO
SECURITIES EXCHANGE ACT RULES 13A-14 AND 15D-14
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Joseph J. Bianco, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the fiscal quarter ended December 31, 2016 of Digipath, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
