iTeknik Holding Corporation
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2014 (UNAUDITED)

NOTE 1 – ORGANIZATION AND DESCRIPTION

iTeknik Holding Corporation (“The Company”) was organized under the laws of the State of Nevada on January 12, 2007. On December 22, 2010, the Company changed its state of organization to Wyoming by filing the applicable legal documents with both Nevada and Wyoming. The Company has one subsidiary, Send Global Corporation. The Company provides wholesale and retail telecommunications services and products.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements included herein include the consolidated accounts of iTeknik Holding Corporation and its wholly-owned subsidiary Send Global, Inc. prepared in conformity with generally accepted accounting principles. All material inter-company accounts, transactions and profits have been eliminated in consolidation.

Cash and Cash Equivalents - For purposes of the Statement of Cash Flows, the Company considers liquid investments with an original maturity of three months or less to be cash equivalents.

Management’s Use of Estimates - The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments – Management believes that the carrying values of financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities, approximate fair value as a result of the short-term maturities of these instruments.

Income Taxes – Provisions for income taxes are based on taxes payable or refundable for the current year and deferred taxes on temporary differences between the amount of taxable income and pretax financial income and between the tax bases of assets and liabilities and their reported amounts in the financial statements. Deferred tax assets and liabilities are included in the consolidated financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled as prescribed in FASB ASC 740. As changes in tax laws or rate are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. A valuation allowance is established when management is unable to conclude that it is more likely than not that some portion, or all, of the deferred tax asset will ultimately be realized.

Earnings (Loss) Per Share - The Company reports earnings (loss) per share in accordance with U.S. GAAP. This requires dual presentation of basic and diluted earnings (loss) with a reconciliation of the numerator and denominator of the loss per share computations. Basic earnings per share amounts are based on the weighted average shares of common outstanding. If applicable, diluted earnings per share assume the conversion, exercise or issuance of all common stock instruments such as options, warrants and convertible securities, unless the effect is to reduce a loss or increase earnings per share. Accordingly, this presentation has been adopted for the periods presented. There were no adjustments required to net income for the period presented in the computation of diluted earnings per share. Diluted earnings per share reflect the assumed conversion of the outstanding preferred stock class A..

iTeknik Holding Corporation
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2014 (UNAUDITED)

Fixed Assets – Fixed assets are recorded at cost and include expenditures that substantially increase the productive lives of the existing assets. Maintenance and repair costs are expensed as incurred. Depreciation is provided using the straight-line method. Depreciation of property and equipment is calculated over management prescribed recovery periods, which range from 3 years for computer equipment and software to 10 years for furniture and fixtures. When a fixed asset is disposed of, its cost and related accumulated depreciation are removed from the accounts. The difference between net book value and proceeds from disposition is recorded as a gain or loss.

Advertising Costs - Advertising costs are expensed as incurred. The Company does not incur any direct-response advertising costs.

Revenue Recognition - Deferred Income represents unbilled credits remaining on end user accounts that the Company has collected money for but has not yet paid its carriers.

Long-Lived Assets - The Company reviews and evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that their net book value may not be recoverable. When such factors and circumstances exist, including those noted above, the Company compares the assets' carrying amounts against the estimated undiscounted cash flows to be generated by those assets over their estimated useful lives. If the carrying amounts are greater than the undiscounted cash flows, the fair values of those assets are estimated by discounting the projected cash flows. Any excess of the carrying amounts over the fair values are recorded as impairments in that fiscal period.
