Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

BUSINESS AND BASIS OF PRESENTATION

Blue Sky Media Corporation. ("BSM" or the "Company") was incorporated under the laws of the State of Wyoming on March 20, 2013.

BSM was formed as a media company engaging in commercial film production, film acquisition, film distribution and APP development. Within those frameworks, the Company also acquires film treatments, scripts and film trailers for resale and/or production.

BASIS OF PRESENTATION

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America, and pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") and reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to fairly present the financial position, results of operations and cash flows of the Company as of September 30, 2015.

ESTIMATES

The preparation of the financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts. Accordingly, actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company maintains a cash balance in a non-interest-bearing account that currently does not exceed federally insured limits. For the purpose of the statements of cash flows, all highly liquid investments with an original maturity of three months or less are considered to be cash equivalents. There were no cash equivalents as of September 30, 2015 and June 30, 2015.

PROPERTY AND EQUIPMENT

The Company values its investment in property and equipment at cost less accumulated depreciation. Depreciation is computed primarily by the straight line method over the estimated useful lives of the assets ranging from three to five years. As of September 30, 2015, the Company had a depreciation and amortization expense of $1,559 and as of September 30, 2014, the Company had a depreciation and amortization expense of $506.

INVENTORY

Inventory is recorded at lower of cost or market; cost is computed on a first-in first-out basis.

ACCOUNTS RECEIVABLE

Trade receivables are carried at original invoice amount. We recognize revenue from sales or services rendered when the following four criteria are met: persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the selling price is fixed or determinable, and collectability is reasonably assured. Receivables past due for more than 120 days are considered delinquent. Management determines uncollectible accounts by regularly evaluating individual customer receivables and considering a customer's financial condition, credit history, and current economic conditions and by using historical experience applied to an aging of accounts. Recoveries of trade receivables previously written off are recorded when received.

FAIR VALUE OF FINANCIAL INSTRUMENTS AND DERIVATIVE FINANCIAL INSTRUMENTS

We have adopted Accounting Standards Codification regarding Disclosure About Derivative Financial Instruments and Fair Value of Financial Instruments. The carrying amounts of cash, accounts payable, accrued expenses, and other current liabilities approximate fair value because of the short maturity of these items. These fair value estimates are subjective in nature and involve uncertainties and matters of significant judgment, and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates. We do not hold or issue financial instruments for trading purposes, nor do we utilize derivative instruments in the management of foreign exchange, commodity price or interest rate market risks.

FEDERAL INCOME TAXES

Deferred income taxes are reported for timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes in accordance with Accounting Standards Codification regarding Accounting for Income Taxes, which requires the use of the asset/liability method of accounting for income taxes. Deferred income taxes and tax benefits are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax loss and credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred taxes are provided for the estimated future tax effects attributable to temporary differences and carryforwards when realization is more likely than not.

NET INCOME PER SHARE OF COMMON STOCK

We have adopted Accounting Standards Codification regarding Earnings per Share, which requires presentation of basic and diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. In the accompanying financial statements, basic earnings per share of common stock is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. We do not have a complex capital structure requiring the computation of diluted earnings per share.

INTERNAL WEBSITE DEVELOPMENT COSTS

Under ASC350-50, *Website Development Costs* , costs and expenses incurred during the planning and operating stages of the Company's website are expensed as incurred. Under ASC 350-50, costs incurred in the website application and infrastructure development stages are capitalized by the Company and amortized to expense over the website's estimated useful life or period of benefit.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company evaluates the recoverability of long-lived assets and the related estimated remaining lives at each balance sheet date. The Company records an impairment or change in useful life whenever events or changes in circumstances indicate that the carrying amount may not be recoverable or the useful life has changed.

STOCK BASED COMPENSATION

The Company recognizes stock-based compensation in accordance with ASC Topic 718 "Stock Compensation", which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options and employee stock purchases related to an Employee Stock Purchase Plan based on the estimated fair values. For non-employee stock-based compensation, we have adopted ASC Topic 505 "Equity-Based Payments to Non-Employees", which requires stock-based compensation related to non-employees to be accounted for based on the fair value of the related stock or options or the fair value of the services on the grant date, whichever is more readily determinable in accordance with ASC Topic 718.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

As of September 30, 2015 and 2014, the Company does not expect any of the recently issued accounting pronouncements to have a material impact on its financial condition or results of operations.

Note 2 - Uncertainty, going concern:

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs to allow it to continue as a going concern. As of September 30, 2015 the Company had an accumulated deficit of ($114,380). The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. The Company is contemplating conducting an offering of its debt or equity securities to obtain additional operating capital. The Company is dependent upon its ability, and will continue to attempt, to secure equity and/or debt financing. There are no assurances that the Company will be successful and without sufficient financing it would be unlikely for the Company to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

Note 3 - Assets

The Company has acquired the rights to five films all of which are in the initial stages of pre-production, from Ocean Pure Media Corporation for $34,200. 300,000 shares valued at $.10 per share were issued to Hector Medina and 42,000 shares valued at $.10 per share were issued to 42 shareholders of Ocean Pure Media Corporation. The acquisition was done on a flat rate basis; meaning that there was no consideration of value placed on each individual film.

We plan to either market the rights to each individual film or possibly produce films contingent on the proper financing (as noted in the section Description of Business).

We have sold the rights to one film, "Two Sevens Clash" for $26,000.00

Films acquired:

"Badlands", (a Horror genre)
"Life of a third World Surfer", (Documentary)
"The Trestles" (Documentary)
"Two Sevens Clash", (the film rights were sold)
"Beirut-Beirut" (Drama story)

Note 4 - Common Stock

In related party transactions, the Company incurred expenses of $36,800 for salaries to its officers. Restricted shares in the amount of 9,500,000 shares were issued in lieu of cash. 6,500,000 shares were issued to Hannah Grabowski at a par value of $.001 per share in 2013. In addition 250,000 shares were acquired for $250.00 by Hannah Grabowski in 2013. In 2014, 3,000,000 shares were issued to the Company's newly appointed President, Wayne Berian at a par value of $.10 per share.

On May 10, 2013 the Company issued 342,000 shares to Ocean Pure Media Corporation, which were issued to the shareholders of Ocean Pure Media Corporation per a contract whereby the Company acquired the rights to certain film media.

On May 12, 2014 the company authorized the issuance of 450,000 shares to MMT, Inc. at a value of $.10 per share for the development of a film APP.

At the year end June 30, 2014 the Company had issued 94,500 shares to investors via a private offering of the company's shares at $.10 per share.

In June of 2014 the Company issued 215,000 shares at a value of $.10 per share for marketing services.

Note 5 - Income Taxes

We account for income taxes in accordance with FASB ASC 740, *Income Taxes* which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Under FASB ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

Note 6 - Subsequent Events

On October 2, 2015, the Company experienced a change in control of the Company. In a share exchange, we agreed to issue 3,457,920 shares of our unregistered common stock to the shareholders of Klear Kapture, Inc., a Delaware corporation, in exchange for 10,000 shares of its common stock, representing 100% of its issued and outstanding common stock (the "Share Exchange") and our repurchase of 9,751,000 shares of our common stock from our former executive officers and directors. As a result, Robert Gruder who was appointed as our Chief Executive Officer and a Director in connection with the Share Exchange received 2,754,233 shares of our common stock in exchange for 7,965 shares Klear Kapture's common stock he previously owned. Mr. Gruder's ownership of our common stock represents approximately 60.4% of our issued and outstanding shares of common stock and became the Company's majority shareholder capable of approving all corporate actions that do not require greater than a simple majority vote of the outstanding shares or the approval of a majority of the outstanding shares held by disinterested shareholders (in each instance as may be set out under Wyoming law, the Company's Articles of Incorporation, or the Company's Bylaws).

On November 3, 2015, we amended and restated our articles of incorporation to change our name from Blue Sky Media Corp. to Life Clips, Inc., in order to better reflect our current business operations. These actions were approved by our board of directors, and the holders of a majority of our common stock. Our proposed name and corresponding symbol change will become effective upon processing of the respective corporate action application with the Financial Industry Regulatory Authority.

Item 2. Management's discussion and analysis of financial condition and results of operations

General

We were incorporated in Wyoming on March 20, 2013 and we are developers, financiers, producers and distributors of motion pictures and related entertainment products. We also generate revenue from commercial video work and are in process of developing an APP. We have been, initially, capitalized through the acquisition of assets from our founding shareholder, outside producers, cash flows from the distribution of our film product, commercial video work and the proceeds from a private placement offering.

Our plans are to continue to market the film rights we own through the companies we have engaged for marketing. We don't anticipate any further costs in regards to marketing the film rights. We estimate a time frame of 3-12 months to sell the rights to our films, however there is no assurance that they could be sold in that time frame. We will also continue to seek financing for one of our films either through a joint venture arrangement or a royalty arrangement. We may also seek equity financing in the future. Production costs and marketing costs for a film could be anywhere from $50,000 to $500,000 depending on the film produced and how the film would be slated to be viewed. At this time we have no arrangements for any funding source nor have we established which film we would produce first if we were to do so. Regarding the marketing of our commercial video services, we have entered into several agreements for commercial video work since our year end and have completed several. We will continue to market our commercial video services with anticipation of expanding our marketing efforts. Although we have engaged 2 companies to aid in the marketing of our commercial video capabilities our optimum would be to hire a person on a full time basis exclusively for marketing our commercial video services which we estimate would cost a minimum of $4,000 per month. At this time we have no plans to hire that person and will not do so until we are better capitalized, which at this time we have no plans for funding of any type.

We have paid $71,500 towards the development of the APP per a contract whereby there are no time frames for completion nor are there any penalties for non-performance; as with many software development projects it is difficult to project an absolute completion date. 450,000 shares of stock were issued at $.10 per share for the transaction and the balance of $26,500 was paid in cash.

Significant Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses the Company's consolidated financial statements which have been prepared in accordance with generally accepted accounting principles in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management bases its estimates and judgments on historical experiences and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Revenue Recognition

Revenue consists substantially of fees earned from movies and videos that we have interests in and commercial video work. We recognize revenue from a sale or licensing arrangement of a film when all of the following conditions are met: non-refundable payment for film rights per a contract, or persuasive evidence of a sale or licensing arrangement with a customer exists; the film is complete and, in accordance with the terms of the arrangement, has been delivered or is available for immediate and unconditional delivery; the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale; the arrangement fee is fixed or determinable; and collection of the arrangement fee is reasonably assured. We recognize revenue from commercial video services rendered when the following four criteria are met: persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the selling price is fixed or determinable, and collectability is reasonably assured upon invoicing for work.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires us to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the estimates.

Results of Operations

For the three months ended September 30, 2015, we had gross revenues of $15,500, derived from commercial video work, and total operating expenses of $25,404 compared with the three months ended September 30, 2014 we had gross revenues of $23,500, derived from commercial video work and the sale of one of our films, and total operating expenses of $21,568. Net loss for the three months ended September 30, 2015 was $9,904 as compared to net income of $1,932 at September 30, 2014. It is the intention of the Company to continue to develop and distribute its entertainment assets and to engage commercial video work as well as to develop its APP, however, there is no assurance the Company will continue to generate Net Income over the long term. At September 30, 2015, since our year end June 30, 2015, we have completed several commercial videos and continue developing our APP. We have several commercial video projects we are currently working on. We typically bill on a flat rate basis after estimating time and resources needed for shooting.

Liquidity and Capital Resources

As of the period ending September 30, 2015 the Company had cash on hand of $5,230, total current assets of $5,230, total assets of $32,520, total current liabilities of $0 and total stockholder's equity of $32,520. At the period ending June 30, 2015 the Company had cash on hand of $13,574, total current assets of $13,574, total assets of $42,423, current liabilities of $0 and total stockholder's equity of $42,423. The Company's cash was generated from revenue from commercial video work. The Company believes it has sufficient cash resources available to fund its primary operation for the next twelve (12) months. The Company has no, current, off balance sheet arrangements and does not anticipate entering into any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition. The Company has no agreements in place with its shareholders, officer and director or with any third parties to fund operations beyond the end of the Company's September 30, 2015 quarter. The Company has not negotiated nor has available to it any other third party sources of liquidity. Cash flows used in operating activities for the three months ended September 30, 2015 were ($8,345) compared to cash flows used in operating activities for the three months ended September 30, 2014 which were ($11,568). There were no cash flows provided by investing activities or financing activities for the three months ended September 30, 2015 or September 30, 2014.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our chief executive officer and chief financial officer are responsible for establishing and maintaining our disclosure controls and procedures. Disclosure controls and procedures means controls and other procedures that are designed to ensure that information we are required to disclose in the reports that we file or submit under the Securities Exchange Act of 1933 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and to ensure that information required to be disclosed by us in those reports is accumulated and communicated to the our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our chief executive officer and chief financial officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1933) as of September 30, 2015. Based on that evaluation, our chief executive officer and chief financial officer have concluded that, as of the evaluation date, such controls and procedures were effective.

Changes in internal controls

There were no changes in our internal controls over financial reporting that occurred during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Dated: November 12, 2015	BLUE SKY MEDIA CORPORATION
	By: */s/ Robert Gruder*
	Robert Gruder, Chief Executive Officer

EXHIBIT 31.1

CERTIFICATION PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Robert Gruder, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the quarter ended September 30, 2015 of Blue Sky Media Corp.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: November 12, 2015

/s/ Robert Gruder

Robert Gruder

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the quarterly report on Form 10-Q of Blue Sky Media Corp. (the "Registrant') for the quarter ended September 30, 2015 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Robert Gruder, Chief Executive Officer of the Registrant, hereby certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and

2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Registrant.

/s/ Robert Gruder
Robert Gruder
Chief Executive Officer (principal executive
officer and principal financial officer)

November 12, 2015

This certification accompanies this quarterly report on Form 10-Q pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by such Act, be deemed filed by the Company for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, except to the extent that the Company specifically incorporates it by reference. A signed original of this written statement required by Section 906 will be retained by Blue Sky Media Corp. and furnished to the Securities Exchange Commission or its staff upon request.
